

Declaration of Chofu City, An international and peaceful city

There are a lot of countries in the world in which many people live.

There are people of all ages ; from babies to seniors.

Although we have differences of language and culture,
All people hope to be good friends and to live in peace.

Regardless of whether they are

People of Chofu or not,

People of Japan or not,

We now embrace the world to promote mutual understanding.

We now welcome people from all over the world.

Many people live on this Earth.

Everyone wants to live in peace.

We believe that peace all over the world will come to pass.

Now, let' s take our hands and make a peaceful world.

March 23,1990 Chofu City
